- To see that my child accepts accountability for his/her own actions should they test positive.
- To work with the school to help kids stay drug-free and in school through high school.

THAT SHALL BE THE GOAL
FOR MY CHILD

The Safe and Drug-Free Community Program

The goal of this parent/school partnership is to keep kids safe and drug-free through high school and hopefully beyond. There will be consequences for errant behavior, but as opposed to zero tolerance programs involving suspensions and/or expulsions that put them further behind, our intent is to do all possible to keep them in the system through close collaboration between parents and the school, relying on the juvenile system only when necessary. A small contribution from all parents enables us to continually provide you with information to assist in your efforts to get your child to adulthood safe and drug free, so they can reach their full potential as an adult.
