# AMERICA, WE HAVE A NATIONAL SECURITY CRISIS OF EPIC PROPORTIONS. WE HAVE BECOME A NARCO-NATION.

*By Roger Morgan, Take Back America Campaign. www.tbac.us*

We have a **national crisis of mental health, addiction, and death.** America is no longer safe owing to marijuana and other drugs, and our sovereignty is at risk owing to the invasion of 10 million illegal immigrants crossing our southern border.

The journey into the abyss started in earnest in 2009. The potency (i.e. THC content) of marijuana was **around 5 or 6%,** and the market for marijuana **about 15 million.** In contrast, today the THC content is as **high as 99**% and the **market has grown to about 55 million.** To the delight of the cartels, and China, the vast new market of drug users created a market for other drugs, **like opioids and fentanyl.**

The overdose death rate has grown from about **100 a day in 2008 to roughly 300 a day in 2024**.[i] **Marijuana-induced psychosis** has become a factor in almost all **mass shootings, which average 1.5 a day**. By May 31, 2024 there were 225 mass-shootings accounting for 318 deaths and 836 injuries. **Homicides have become a daily occurrence,** many caused by **marijuana induced psychosis** where people completely detach from reality. (Heidi Swan Video) **Suicides at 135 a day are at record levels**. **Roughly one in 5 drivers are impaired** contributing to **roughly 106 traffic deaths a day.** Add other deaths from associated medical problems and the figure easily rises **to 1,000 a day**. No war in American history compares with this level of death; and death isn't the only adverse outcome.

Oblivious to the **harms THC can inflict on brains** that won't be fully mature until the mid to late twenties**, 37% of high school seniors** and as high as **44% of college students 19-22 years** old are using marijuana[ii]. The **homeless problem,** largely driven by mental illness and addiction, continues to grow. **Crime is rampant** nationwide, plus we have an **invasion of foreign cartels**, **many from communist China,** growing and marketing marijuana illegally, and **causing irreparable environmental harm**. Top that off with **ten million illegal immigrants** in just the past 4 years, many with evil intent. **This is a national security crisis of global proportions.** (Robert Charles Video) **It must change, or quite simply America has no future.**

This didn't just happen by accident. Our **Commander-In-Chief and political leaders** have been hijacked by billionaires with evil intent within our own borders; **George Soros and his son Alexander Soros, and their Open Society Foundation.** While our Defense Department is totally focused on external enemies, these enemies within have **destroyed more** lives, **killed more people**, caused **more disruption and harm to our traditional American values**, and **cost Americans more money ($3.7 trillion annually[iii])**, than all external enemies combined: They must be neutralized and, along with those in our government(s) they have corrupted must be held accountable.

George Soros, is a megalomaniac, obsessed with imposing his Open Society philosophy on the world. That includes allowing open borders and the free flow of immigrants to establish his obsession with establishing a New World Order. Unfortunately, his skills in investing armed him with billions to impose his maligned views on the world, especially Europe and the US. In the last 20 years especially, he has heavily funded anything and everything that would undermine traditional American values because, in his words *"The*

*main obstacle to a stable and just world order is the United States* ***... Changing the attitude and policies of the United States remains my top priority."***[iv]

The list is endless, but includes Black Lives Matter, Antifa, the WOKE movement, Open Borders, villainizing and Defunding the Police, fund DA's who won't prosecute crime, pay agitators to help protest, sex change for children without parental consent, antisemitism, sensationalizing climate change as a military problem, progressive education, controlling the media, legalizing marijuana contrary to federal law, and shaping drug policies that are intended to dumb down and destroy our youth and destroy American superiority.

Soros created **"HARM REDUCTION",** a ridiculous drug strategy that **ignores prevention. E**ven he admits "… *prevention the most important dimension of the government's responsibility to protect*."[v] Harm Reduction consists of;

1) Allows possession and use of drugs, irrespective of the harms to the user, and the danger the users pose to others.

2) Ignores prevention, and just offers treatment and rehabilitation to the victims.

3) Eliminates penalties for criminal behavior, because "… addicts have a health problem, not a criminal problem."

Laws that don't punish actually encourage crime. Soros has spent in excess of $40 million to put DA's in office that won't prosecute crime which have dramatically increased murders in Chicago, Philadelphia, Baltimore, Los Angeles and Oregon. They have used their vast wealth as well to influence legislation that reduces penalties for crimes, such as California Prop 47 which allows retail theft of up to $950 as a misdemeanor; or categorizing 6,000 marijuana plants as a misdemeanor, the same as 6 plants.

**"Harm Reduction" has been federal drug policy since 2009, not based on its merits but solely because of his ability to corrupt**. For 15 years, there has been no serious attempt by the federal government to educate and raise awareness of the harms of marijuana, or any attempt to implement a universal nationwide prevention program. Soros, and now son Alexander who is armed with $25 billion, is determining drug policy, and who should be placed in positions to implement it. Only the government itself, who has ignored its ***Responsibility To Protect*** the people, has the resources to confront the enemy. That is paradoxical at the moment since Soros and son essentially own and control the government. But if human life is important, the quality of life, and the future of this great nation, millions of Americans need to demand that the Attorney General hold George and Alexander Soros accountable for **sedition, treason and causing large scale loss of life with genocidal intent**. Soros and son have done more harm, and are a greater threat to our nation, than all foreign enemies combined.

We join with all veterans who have sacrificed life and limb to protect our nation by asking that you help us make America Safe Again by signing the petition.

# PETITION – HOLD SOROS ACCOUNTABLE

August , 2024

Soros states **"*The main obstacle to a stable and just world order is the United States ... Changing the attitude and policies of the United States remains my top priority*.**[iii] By changing the attitudes and policies, he really meant destroying America as we have known her.

In the last 20 years particularly, Soros has financed **every seditious act that would encourage people to rebel against authority**. The list is endless but includes **Ferguson**, **Black Lives Matter, Defund the Police, Antifa, Open Borders, the Woke philosophy, financing legalization of marijuana contrary to federal law, DA's that won't prosecute crimes, financing paid agitators for uprisings and protests, denigrating conservatives and Christians, and school programs to program children for anti-American principles. In addition, his ridiculous "Harm Reduction" has been federal policy for 15 years owing to his ability to corrupt politicians.** It has **destroyed more lives, killed more people**, **disrupted more communities,** and **inflicted more environmental and economic harm** on America **than any act of war in American history**. Roughly **1,000 people are dying on American soil every day owing to drug elated causes. Marijuana-induced psychosis is a factor in almost all mass shootings,** now happening at a rate of 1.5 a day, and **a major factor in homicides and suicides.** We have a **crisis of mental health and addiction**, **record levels of suicides, traffic deaths. a homeless problem,** and a **threat of permanent brain damage to over 40% of our youth**. He is guilty of **sedition**, **treason,** orchestrating **large scale loss of life**, and **violating his oath to become an American citizen.**

Soros proclaims that ***"I cannot and do not look at the social consequences of what I do."*** But we Americans, who cherish our freedoms, and hold the health and safety of our children, grandchildren, and personal safety dear, insist our Department of Justice hold him and the Open Society Foundation (OSF) accountable for his extraordinary crimes.
